

A SWEET LITTLE BABY BOY

Makes a Bright Spot in Every Home. A Comfort in Years to Come

Park Rapids, Minnesota. "I have taken your medicine—Lydia E. Pinkham's Vegetable Compound—when I was a girl for pains and before and after my marriage. I now have a sweet little baby boy and will send you his picture if you wish to publish it. My sisters also take your medicine and find it a great help, and I recommend it to those who suffer before their babies are born." —Mrs. Wm. Johnson, Box 155, Park Rapids, Minn.

To marry and arrive at middle age without children is a great disappointment to many women. Think of the joy and comfort other women have in their children as they grow older.

Lydia E. Pinkham's Vegetable Compound has helped to bring great happiness to many families by restoring women to health. Often the childless home is due to a run down condition of the wife, which may be helped by Lydia E. Pinkham's Vegetable Compound. It brought health and happiness into the home of Mrs. Johnson. Why not to yours?

LONG DISTANCE HIKER VISITS PARIS

Walking on a wager that he will visit every State in America, three points in Canada, and one in Mexico, within two years, Bernard Mugler, twenty-four, an ex-service man of Newark, N. J., passed through Paris two months ahead of his schedule Sunday. Mugler was en route to Knoxville, Tenn.

Mugler left New York on September 19, 1921, on a wager that he was to cover approximately 30,000 miles within two years. He is allowed to accept any ride, food or shelter that is offered him, but cannot solicit aid of any kind. If he is successful in the attempt he is to receive \$3,000 from a New York man, according to his statement. If he saves \$2,000 from the sale of postal cards he is to receive \$2,000 bonus, making a total of \$7,000 for the trip.

Up to the present time Mugler has touched thirty four States, one point in Mexico and one in Canada. He left for the South after spending a few hours here. He was very much impressed with Paris during his short stay.

The first number of the Redpath Lyceum program will appear October 26 at the Millersburg College Auditorium at 8:00 o'clock. The program for this occasion is to be furnished by the "Alexander Trio." The faculty and High School students enjoyed a treat in the lecture given at the gymnasium Saturday afternoon by Prof. Farquar, of Kentucky University, given under the auspices of the Twentieth Century Club of Millersburg.

—The Alexander Trio, who appear at the M. C. under the auspices of the local Lyceum committee Thursday evening October 26, have been accorded praise in many parts of the United States. J. F. Alexander, baritone and director of the company, plays the saxophone, mellophone, steel guitar and the Spanish guitar, a unique instrument of beautiful tonal possibilities. Mrs. Anna Alexander, contralto, plays the saxophone, mellophone, piano and guitar. Miss Evelyn Dalin, soprano with the company, features on the violin. Her musical readings are an interesting part of the well-balanced program presented by the trio. Popular and classical vocal and instrumental selections in solos, duets and ensemble, together with delightful musical readings, make the program thoroughly delightful and entertaining.

PARIS CITY SCHOOL NOTES

Mrs. Lizzine Walke is school visitor of Paris City Schools, rather than a truant officer. Mrs. Walker knows the people of Paris perhaps as well as any person in the city. She knows the home conditions of practically every child in the City Schools, and takes a peculiar and individual interest in the welfare of every child. She puts in her time visiting the homes, helping and encouraging the parents to keep their children in school regularly and is making a wonderful success in her work in the City Schools.

Her report at the close of the first month shows practically no truancy in Paris. A few children have been out on account of sickness of various kinds, but a real truant case is hard to find in this city. This condition of affairs is true because of the kindly interest that Mrs. Walker and the teachers in the city schools take in the children. Children, as a rule, love to go to school, and when they find that the teachers are interested in their happiness and welfare it makes them more interested. When they are absent Mrs. Walker calls and shows a kindly interest in them and lets them know that they are missed if they are out even a half day. This still further strengthens their interest in the school.

The school visitor plan has proven successful wherever it has been tried and it is proving successful in Paris. The position of School Visitor is one of the most important in the entire school system and one of the most difficult to fill.

Attractive booklets announcing the Paris City School's Lyceum Course for this year have just been issued. These booklets have posters of all the attractions in them and educational letters on the backs worth any one's while to study and meditate. Five hundred of these booklets were printed and will be used during the entire course and we trust will do the firms a great amount of good.

REYNOLDS MAKES BIG TOBACCO PURCHASES

Fifty-four million pounds of tobacco were sold Monday by the Burley Tobacco Growers' Co-operative Association, through President and General Manager James C. Stone, to the R. J. Reynolds Tobacco Company, through its Kentucky vice-president, T. H. Kirk. The tobacco was sold at the association prices for its regular grades, President Stone said. Part of the tobacco, it was said, is for export. The sale included almost the entire holdings of the association.

The negotiations leading up to this, the largest sale of burley tobacco to a single manufacturer in the history of the country, had been going on for more than a week. There was general rejoicing in the ranks of the burley association members and officials when the deal finally was completed.

No information was given by Mr. Stone as to the amount of money involved, as it was said it was not known just how much the tobacco would bring until the transaction finally is completed by the actual taking over of the tobacco. Both President Stone and Director of Warehouses Barker have said for some time that the association would sell all its holdings because of the needs of the manufacturers and the lightness of the 1922 crop; and that it was very likely that a considerable portion of the holdings would be taken by those manufacturers who already had purchased from the stocks of the association.

HARKNESS CASE AGAIN IN COURT

Charging that the Harkness estate should have paid approximately \$1,500,000 in taxes instead of \$340,000 in taxes, Robert C. Talbott, of Paris, representing the Commonwealth, asked the Court of Appeals Friday to set aside the settlement effected in 1916, on the ground that it was made by fraud. Argument for the retention of the original \$240,000 settlement was made by Judge Alex P. Humphrey, of Louisville.

The entire court heard the arguments. Judge Hymphreys was assisted by Cornelius J. Sullivan, of New York, and Judge Alex Barrett, of Louisville. Mr. Talbott was assisted by Attorney General Dawson and County Attorney Spencer Carrick, of Fayette.

It will be remembered in connection with this litigation that Mr. Talbott secured the largest tax judgment in this case that has ever been secured in this State.
